

The Botanical Gazette Volume 73

By John Merle Coulter

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1922 edition. Excerpt: .leptosporangiate species growing near by. Fig. 24.--Embryonic selection in Aspidium: A, enlarged view of larger embryo of C, surrounded by calyptra; B, smaller unicellular embryo shown in C on same gametophyte, less than 1 mm. distant; (C reconstructed from several serial sections); A and BX200, CX42. This is included here because it seems to show a stage slightly later than that of fig. 24, and indicates the fate of the smaller embryo of the latter. It is especially interesting to note the shrunken and starved appearance of the embryo in fig. 25 B. That the larger embryo starves the smaller is a very natural explanation; this is a factor which is very certain to be involved, but it is also possible that the excretions of one embryo tend to inhibit the development of the others. In ferns having large vigorous gametophytes with many archegonia, if...
